CHECKLIST

Cascade bouquet assembly checklist

- [ ] Condition all flowers for at least two hours before wiring
- [ ] Wire each stem individually and wrap with floral tape
- [ ] Trim wired stems to graduated lengths
- [ ] Build the rounded centre with the shortest stems
- [ ] Add trailing blooms and foliage, checking balance as you go
- [ ] Bind all stems at one point and wrap the handle
- [ ] Test the weight and adjust heavy elements
- [ ] Mist the finished bouquet and store in a cool room
