CHECKLIST

Wrist Corsage Construction Checklist

- [ ] Condition flowers in cool water for an hour before starting
- [ ] Cut each stem to an inch below the flower head
- [ ] Wire blooms through the calyx and tape the join immediately
- [ ] Stitch wire through leaf veins and tape the twisted ends
- [ ] Trim the stem bundle to the length of your thumb
- [ ] Attach ribbon or elastic to the taped base with tight wraps
- [ ] Tie the corsage onto the wrist with flowers facing inward
