CHECKLIST

Flower Revival Checklist

- [ ] Remove wilting stems from the vase immediately
- [ ] Re-cut stems at a sharp diagonal under running water
- [ ] Strip all foliage that will sit below the waterline
- [ ] Empty and rinse the vase to remove bacteria
- [ ] Apply the correct revival technique for the flower type
- [ ] Place stems in fresh, cool water
- [ ] Rest the arrangement in a cool spot away from sun
- [ ] Discard any stems with slimy or blackened ends
