CHECKLIST

Hydrangea Revival Checklist

- [ ] Remove all leaves from the lower half of the stem.
- [ ] Re-cut the stem at a sharp diagonal angle, removing at least two centimetres.
- [ ] Submerge the cut end in boiling water for thirty to sixty seconds.
- [ ] Transfer immediately to a tall vase of cool, clean water.
- [ ] Leave standing for at least two to three hours before arranging.
- [ ] Place the vase in a cool spot away from direct sunlight and heating vents.
- [ ] Change the water every two to three days and re-cut the stem slightly each time.
